Gothenburg Technical College
project meeting SHINE September 2016

Ewa Ekman CEO/Principal

A unique co-operation between local government and business

Gothenburg Technical College is owned by:

- 25.5% Volvo Group Company
- 25.5% Volvo Cars Company
- 49% City of Gothenburg

Profits are reinvested in the business

**Göteborgs
Stad**

Our vision

Gothenburg Technical College shall be a leader in learning and the development of industrial technical education and training on upper secondary and post-secondary level in Sweden

Our business concept

Gothenburg Technical College develops and delivers industrial technical education and training in co-operation with the industry

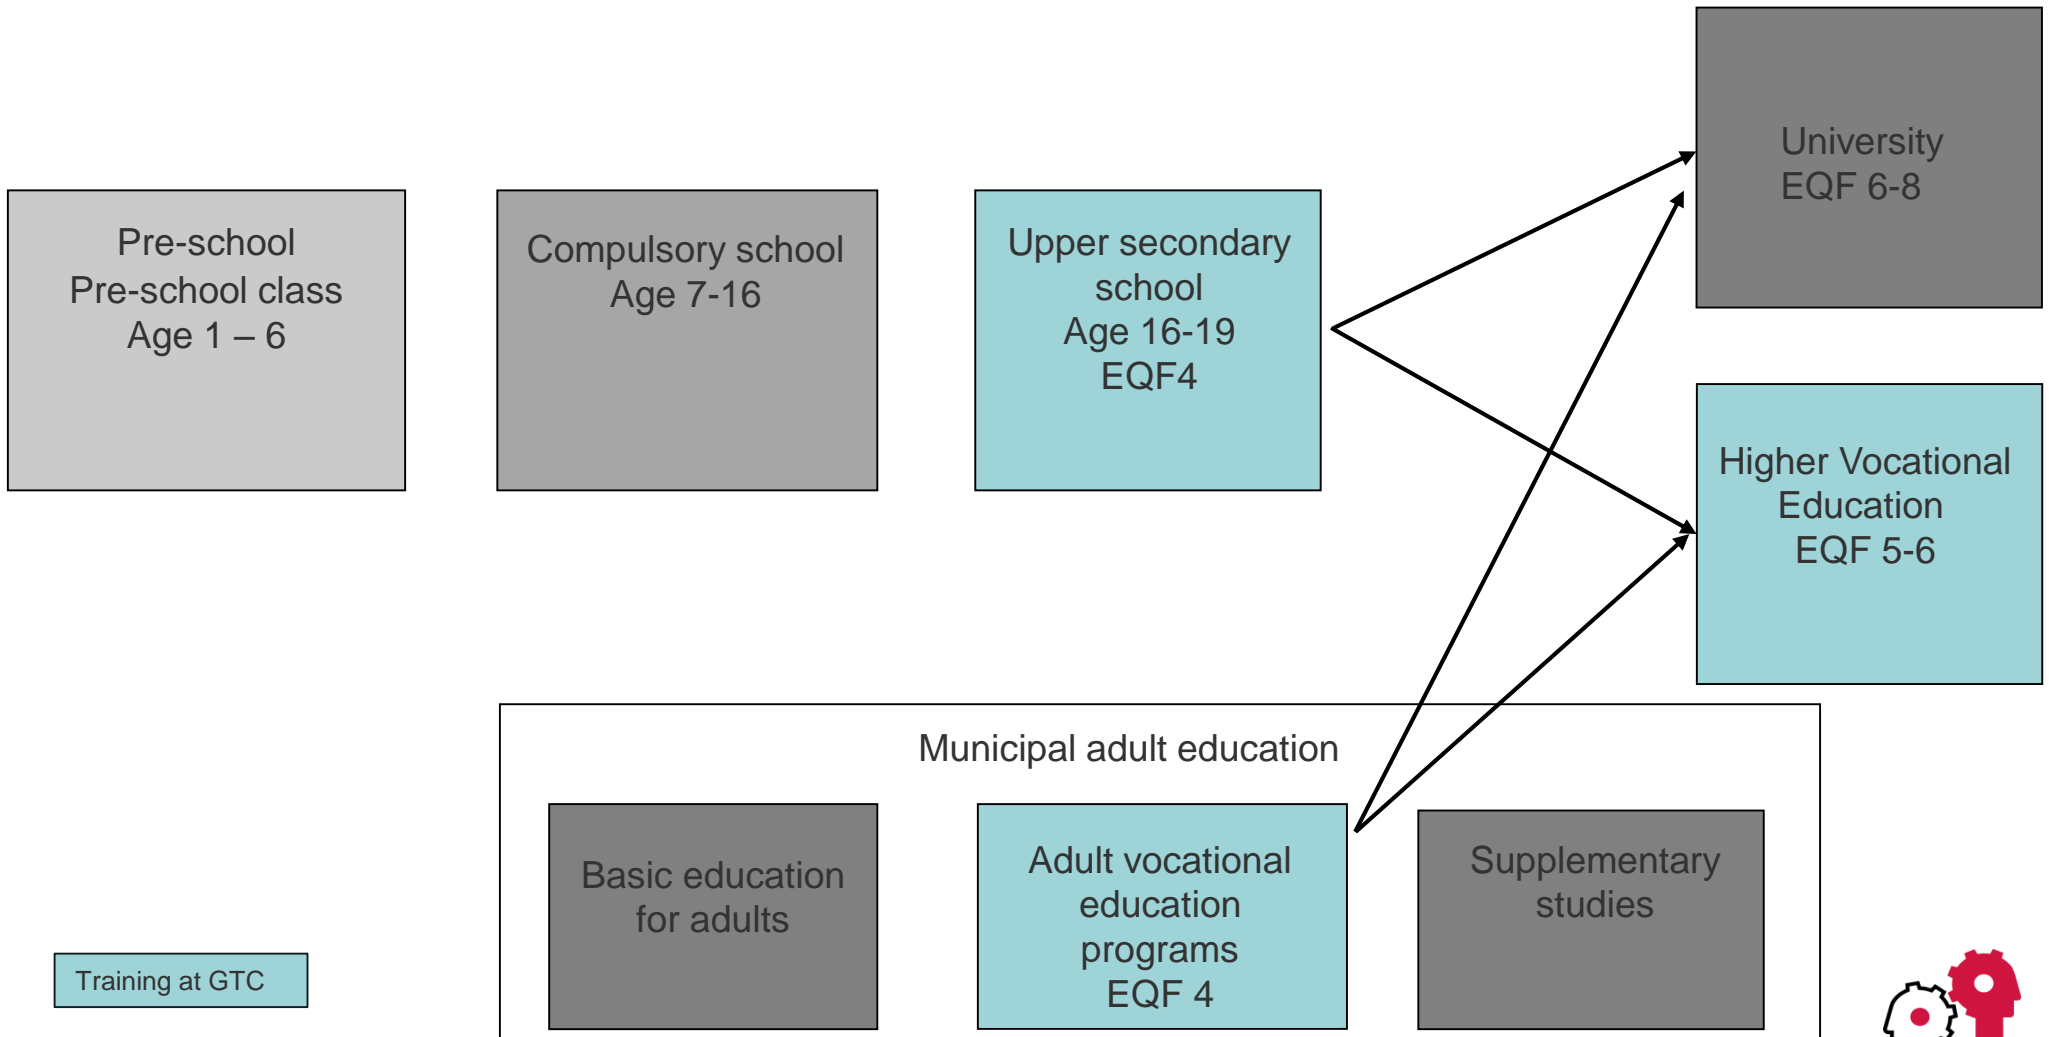

Ownership directives

Gothenburg Technical College shall strengthen the competitiveness and employability amongst companies and citizens through developing and implementing industrial technological training programs in close co-operation with the industry, for instance by:

- Strengthening the long-term recruitment by implementing training programs on secondary and tertiary level
- Make people aware of the different variety of jobs within the industry of tomorrow
- Working to increase the students' ability to function in a sustainable, international and multicultural environment
- Promoting the future sustainability of the industrial production industry

The Swedish school system

Training at GTC

The right skills for a job
